Same Item, Different Tier Output

The examples below simulate what the current app flow would produce for the Marcy Home Gym in each tier. All three preserve the same valid Facebook category, but higher tiers improve persuasion, SEO, pricing confidence, and workflow automation.

Free / Basic
Positioning: Best for a single quick post. Limited but useful.
Title Marcy Home Gym - Like New
Description Marcy Home Gym for sale in like new condition. Includes the workout station, seat, pulley system, press arms, and leg developer. Multi-function setup with adjustable seat, high and low pulley system, dual-action press arms, and leg developer. Located in Girard, OH. Great option for home strength training without a gym membership. Asking \$350.
Category Sporting Goods > Exercise & Fitness
Hashtags #FacebookMarketplace #LocalPickup #HomeGym #Fitness #Workout

Pro
Positioning: Best value for repeat local sellers. Unlocks practical selling tools.
Title Marcy Home Gym - Like New Complete Home Workout Station
Description Upgrade your home workouts with this Marcy Home Gym in like-new condition. This multi-function station includes an adjustable seat, high and low pulley system, dual-action press arms, and leg developer for full-body strength training. Includes the workout station, seat, pulley system, press arms, and leg developer. Estimated market value: \$250-\$450, with \$350 positioned as a balanced quick-sale price. Located in Girard, OH. Clean, complete, and ready for pickup.
Category Sporting Goods > Exercise & Fitness
Hashtags #MarcyHomeGym #HomeWorkout #FitnessEquipment #StrengthTraining #LikeNew #GirardOH #LocalPickup

Business

Positioning: Designed for inventory workflows, exports, and repeatable templates.

Title

Generated Text Quality Differences

Dimension	Free / Basic	Pro	Business
Copy depth	Short, clear, buyer-friendly	More persuasive and benefit-led	Most complete and operationally structured
SEO	Basic hashtags and item terms	Enhanced keyword set and category alignment	SEO plus repeatable inventory phrasing
Pricing	Shows researched range and urgency buttons	Adds comp framing and condition-aware positioning	Adds bulk-ready price logic and export consistency
Seller workflow	Single listing creation	Repeat listings with saved spreadsheet	Bulk URL mode, CSV export, templates

Upgrade Story

Free / Basic Great for trying the generator. It creates a clean single listing, supports one photo, AI provider selection, photo identification, pricing buttons, and standard title/description. Upgrade prompts keep Pro value visible.	Pro The practical seller tier. It unlocks the full photo checklist, saved-items spreadsheet, CSV export, richer SEO/keyword positioning, market-comps framing, and repeat-listing workflow.	Business The inventory tier. It adds Business-only bulk URL mode, Facebook bulk CSV workflow, templates/presets, and priority-model positioning for sellers managing multiple items.
---	---	--

Bottom Line

Basic proves that the listing generator works. Pro makes the workflow sellable by unlocking the operational tools a repeat seller needs. Business turns the app into a lightweight inventory engine with bulk mode, templates, and export workflows.
